

WDNR/DoD P2 Alliance
11 October 2001 Meeting Minutes
Fort Mc Coy

1. PLACE: The meeting was called to order at 1000 hours in Conference Room A, Building 2171. Al Balliett chaired the meeting and Mike Miller served as Recorder.
2. INTRODUCTIONS: The attendees introduced themselves for the benefit of the Speaker.
3. AGENDA: See Attachment 1. The Sherwin-Williams water-based CARC demonstration was postponed until 16 October 2001 at 1330 hours at Fort McCoy building 200. The tour of the Army National Guard MATES facility was also postponed to a future meeting.
4. ATTENDEES: See Attachment 2.
5. REVIEW OF MINUTES: Last meeting minutes from 23 May were read and approved.
6. PRESENTATION: Ms. Pat Rippey, USACHPPM, did a presentation on Affirmative Procurement and compliance with RCRA 6002. At the P2 meeting, Pat mentioned the EPPNET listserv. Pat sent the following information:

EPPNET, the Environmentally Preferable Products Procurement Listserv sponsored by The Northeast Recycling Council (NERC). For more information, visit the list's webpage at <http://www.nerc.org/eppnet.html> or NERC's home page at <http://www.nerc.org/>

Pat asked me do remind everyone that even though the list serve is run by the Northeast Recycling Council, its participants are all across the country. I signed up on 15 October and was receiving e-mails the very next day. Please contact Pat with questions at DSN 584-5201, comm (410) 436-5201 or at Pat.Rippey@apg.amedd.army.mil

7. ACTION ITEMS:

a. Web Site Update. Army National Guard and Air Force Reserve still need to submit logos for the web page. Our site is now connected to DENIX. We are looking for success stories to go on the web page. Suggested items during the meeting included the reduction of hazardous waste at Volk Field and the Army Guard's experience with various types of parts washers. Please bring to next meeting. Also, the Alliance's new list serve address is dod-wip2@great-lakes.net.

b. Awards: No new award nominations were submitted for review.

c. Training Opportunities. Discussion was held on courses offered by the Wisconsin Department of Emergency Management. A course schedule will be made available at the next meeting.

d. Opportunity Assessments. This item was deferred pending the restoration of funding for the Solid and Hazardous Waste Education Center.

e. Historic File. Mike Miller mentioned he will have to separate the existing binder file into separate files as it is becoming too thick.

f. Other Discussion:

(1). Pete Schuster led a discussion on Parts Washers. The Army Guard originally purchased "CHEM FREE" SMART parts washers. This did not pan out for their applications and they are now in the process of replacing them. He has about 15 Smart parts washers he would like to get rid of. Please contact Pete at DSN 724-3355 or commercial (608) 242-3355 to make arrangements, if interested.

(2). Jerry Rodenberg distributed a “Call For Papers” at a Multi-State Working Group meeting on Environmental Management Systems scheduled for Orlando, FL, 3-4 June 2002.

(3). Hugh McAlear provided feedback on the Great Lakes Regional P2 Meeting in Madison in July, the DOD Environmental Seminar held in Chicago in August and the Joint Service P2 and Hazardous Waste Conference held in San Antonio in August.

(4). Mike Miller distributed literature on STARPOWER Super Cleaner/Degreaser and on Sorbent Products. Contact Mike if you would like copies at (608) 388-4787.

8. Taskings for the Next Meeting:

- a. Submit logos and brief write up to Jerry Rodenberg for the web site – Army Guard and the Air Force Reserves (440th ARW).
- b. Make arrangements for a DNR speaker to make a presentation on WI Hazardous Waste Regulations – Jerry Rodenburg.
- c. Make arrangements for a location for the next meeting – Kevin Devenport.
- d. Prepare a Success Story on Hazardous Waste Reduction at Volk Field – Ken Delano.
- e. Prepare a Lessons Learned Paper on Parts Washers – Pete Schuster.

9. The next meeting is scheduled for 17 January 2002 in the Milwaukee area. The 88th Regional Support Command (Army Reserves) will serve as the host.
